

CBH Fertiliser Product Guide 2024/25

Growing to support the fertiliser needs of WA growers.

With an expanding team of product experts, CBH Fertiliser can assist you with all your liquid and granular fertiliser needs.

- UAN and range of quality granular fertilisers
- Market-leading competitive prices
- Reliable supply
- On-site custom blending
- Easy pick-up and booking system
- Growing sales team of experienced industry experts

For all your fertiliser needs, contact CBH Fertiliser today.

Fertiliser on your terms

Our fertiliser product range comes from reputable, established suppliers and our product testing ensures the best quality fertiliser for your business.

Follow these steps to place your order.

AN EASY FOUR STEP PROCESS

1

Contact your Fertiliser Area Manager or local Business Relationship Manager for the latest prices, or request a quote at www.cbh.com.au/fertiliser

2

Fertiliser contracts will be sent to you with product, price, pick-up period, payment terms and T&C's.

3

Collection bookings can be made quickly using the Fertiliser Booking calendar available in LoadNet.

Scan the QR code to access our How to Guide for the booking calendar.

4

Pick-up from Kwinana Fertiliser Terminal and other CBH Fertiliser sheds is integrated with our new LoadNet Fertiliser Booking calendar.

Scan the QR code to access our How to Guide for the Domestics App for fertiliser pick-ups.

Custom blending

Our on-site blending system utilises load cells and advanced software to monitor the loss in weight from each hopper, allowing for fast and uniform coating of fertiliser during the blending process.

Trace elements including copper, zinc, manganese sulphate and sodium molybdate are available on request, along with the option to include Flutriadol (fungicide).

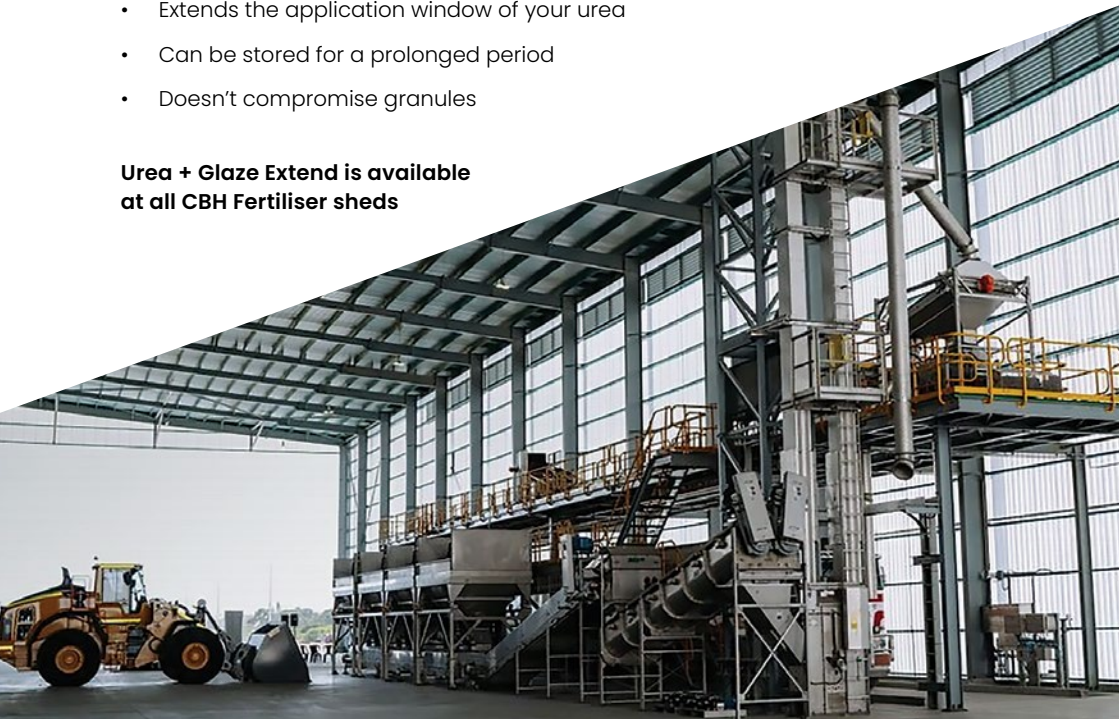

Urea + Glaze Extend

Urea + Glaze Extend is a urease inhibitor formulated with N-(n-Butyl) thiophosphoric triamide (NBPT). It is a water-based, solvent-free solution designed to reduce nitrogen loss through volatilisation when applied to urea.

It offers a range of benefits:

- Non-toxic, pH neutral and free of offensive odours
- Extends the application window of your urea
- Can be stored for a prolonged period
- Doesn't compromise granules

**Urea + Glaze Extend is available
at all CBH Fertiliser sheds**

Flexible payment options

\$ 30-day end of month payment

\$ **Pre-Pay Advantage** finance

\$ Credit card and BPAY facilities available via Australia Post

How does Pre-Pay Advantage work?

Use your crop's potential to cover your input costs. Once approved you can access a \$200 per tonne pre-payment when you need it.

Your Pre-Pay Advantage facility is repaid when you sell grain to CBH, to an approved marketer under the Sell Anywhere feature* or via Electronic Funds Transfer*.

How to apply

Apply online via LoadNet and submit for credit assessment.

Please contact your **Business Relationship Manager**, the **Grower Service Centre** or email **CBHMarketingWA@cbh.com.au** for more information.

<https://cbhgroup.co/pre-pay>

Key features

- Fast approvals
- Flexibility to market grain your way
- Competitive interest rates
- Easy application via LoadNet

*Fees apply for these options

The rate you pay will be based on the outcome of our full credit assessment of your application. Please note fees apply to your Pre-Pay Advantage facility. An application process, credit assessment, approvals and terms and conditions apply. Please refer to the CBH website for details.
