

2025/26 Grower Freight Rates

Destination Freight Charges for 2025/26, as at 20th Jan 2026

Grower freight rates for the 2025-26 season have now been finalised.

Growers who have nominated their grain for sale between **1st October 2025 and 1st February 2026** invoice date will be invoiced freight charges using the final 2026 freight rates. Nominations after this date will generate separate invoices on a monthly basis.

Geraldton, Albany & Esperance Ports have Port Freight Distribution charges, averaging Depot charges and are for Growers ONLY; not Marketers. Due to limited transport capacity and uncertain freight costs to service Out of Zone Task, Out of Zone nominations are therefore offered at significantly higher rates compared to previous season. These rates are subject to change and CBH will continue to review service availability throughout harvest.

Grower Freight Rates are quoted in \$/tonne and exclude GST.

Site	Zone	To Zone's Natural Port	To Geraldton	To Kwinana	To Albany	To Esperance
